# COMPUTER SYSTEM: IPO + HARDWARE/SOFTWARE

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** Input-Process-Output-Storage cycle. Hardware = touchable; Software = system (OS) + application (Word/HMIS). Nursing use in every module.

| Part    | Examples                                                            |
|---------|---------------------------------------------------------------------|
| Input   | Keyboard, mouse, scanner, barcode, biometric, monitors/device feeds |
| Process | CPU + RAM execution                                                 |
| Output  | Monitor, printer, discharge summary, dashboard                      |
| Storage | RAM temporary, SSD/HDD permanent, cloud linked                      |

**FATAL TRAP:** Calling monitor a CPU. CPU is box/chip; monitor is output only.

**NORCET HIT:** IPO + touch vs logic.

# CPU, MEMORY & STORAGE HIERARCHY

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** CPU speed (GHz) + cores; cache fastest-smallest; RAM volatile-working; SSD/HDD non-volatile; backup rule 3-2-1.

| Level           | Nature                                    |
|-----------------|-------------------------------------------|
| Cache/registers | Fastest, tiny, inside CPU                 |
| RAM             | Volatile, working space — off = gone      |
| SSD/HDD/USB     | Permanent, ward images, HMIS backup       |
| Cloud           | Remote, scalable — needs privacy contract |

**FATAL TRAP:** RAM as permanent store. Power off wipes RAM — save to drive/cloud.**NORCET HIT:** Fast-small to slow-big: Cache-RAM-Disk-Cloud.

## PERIPHERALS & BEDSIDE DEVICES

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** Barcode reader (ID/meds), biometric (attendance/ABHA eKYC), printers (wristband/label), monitors + device interfaces (vitals to EHR).

| Device            | Role                                    |
|-------------------|-----------------------------------------|
| Barcode/QR        | Scan patient + drug + sample — 5 rights |
| Biometric         | Identity + attendance, consent-linked   |
| Monitor/interface | Vitals auto to EHR — verify before sign |

**FATAL TRAP:** Blind trust on auto-vitals. Verify patient + value + trend before charting.

**NORCET HIT:** Scan-Verify-Act-Document.

# OS, FILES, FOLDERS & SAFE HANDLING

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** Login individual + lock (Win+L); folders by ward/date; save early-often; no unknown USB/software.

| Action | Rule                                            |
|--------|-------------------------------------------------|
| Login  | Individual ID + MFA, never share; lock on leave |
| Files  | Named ward-date-topic, versioned, backed up     |
| Apps   | Approved HMIS/Office only; patch + antivirus    |

**FATAL TRAP:** Shared team login. Audit needs individual accountability.**NORCET HIT:** Lock-Name-Save-Backup.

## FILE TYPES & EXTENSIONS

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** DOCX notes, XLSX data, PPTX teaching, PDF final/share, CSV data exchange, JPG/PNG images, ZIP bundle.

|                   |                                    |
|-------------------|------------------------------------|
| Task              | Pick                               |
| Report/assignment | DOCX → PDF final                   |
| Census/data       | XLSX/CSV                           |
| Teaching          | PPTX + PDF handout                 |
| Wound image       | JPG/PNG in approved EHR, consented |

**FATAL TRAP:** Patient photo in personal gallery/chat. Approved EHR + consent only.**NORCET HIT:** Edit in Office, share as PDF.

# MS WORD FOR NURSING NOTES

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** Styles-headings, tables, header/footer (page no.), track changes, print/PDF export; handover/assignment/report.

| Need           | Feature                          |
|----------------|----------------------------------|
| Handover sheet | Table + header + page numbers    |
| Assignment     | Headings + TOC + references      |
| Poster         | Columns + images + readable font |

**FATAL TRAP:** Manual page numbers + no headings. Use auto TOC + styles.**NORCET HIT:** Style-Table-Export.

## EXCEL FOR CENSUS & QUALITY DATA

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** Cells/ranges, sort/filter, freeze panes, validation (drop-downs), tables, basic charts; bed census, inventory, fall/Med error log.

|           |                                        |
|-----------|----------------------------------------|
| Data      | Do                                     |
| Census    | Table + filter + daily totals          |
| Quality   | Validation + conditional + chart trend |
| Inventory | MIN/MAX + reorder flag                 |

**FATAL TRAP:** Typing totals manually. Formula + verify + lock cells.**NORCET HIT:** Enter-Validate-Chart-Verify.

## EXCEL FORMULAS: RAPID NURSING SET

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** SUM, AVERAGE, MIN/MAX, COUNT/COUNTA, IF, percentage, dates; sanity-check every result.

| Q              | Formula             |
|----------------|---------------------|
| Total census   | =SUM(B2:B32)        |
| Average stay   | =AVERAGE(C2:C32)    |
| Bed %          | =occupied/total*100 |
| Flag low stock | =IF(stock           |

**FATAL TRAP:** Blind copy-paste formulas. Check ranges + units + decimals.**NORCET HIT:** Question-Formula-Sanity.

# POWERPOINT FOR TEACHING

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** One objective per slide, 6x6 text, large font, image/chart, speaker notes, rehearse + PDF handout.

|       |                        |
|-------|------------------------|
| Slide | Rule                   |
| Title | Objective + takeaway   |
| Body  | Bullets short + visual |
| End   | Summary + references   |

**FATAL TRAP:** Wall of text + tiny font. Visual + voice, not reading.**NORCET HIT:** Objective-Visual-Present.

# INTERNET: BROWSER, URL, SEARCH

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** Browser + URL parts; search keywords + filters; verify source (gov/peer-review); safe download/upload; cookies/cache awareness.

|            |                                |
|------------|--------------------------------|
| Need       | Go                             |
| Guideline  | MOHFW/WHO/INC site, check date |
| Evidence   | PubMed/Scholar/Cochrane        |
| Image/tool | Licensed + cite                |

**FATAL TRAP:** First result = truth. Check domain + date + author.**NORCET HIT:** Need-Search-Verify-Cite.

## EMAIL & PROFESSIONAL WRITING

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** To (action) / CC (info) / BCC (privacy); subject clear; attach before send; no patient identifiers on personal mail; phishing check.

| Field     | Use                         |
|-----------|-----------------------------|
| To/CC/BCC | Action / info / hidden mass |
| Subject   | Ward-date-topic             |
| Body      | SBAR short + signature      |

**FATAL TRAP:** Reply-all with patient data. Minimum necessary + approved channel.**NORCET HIT:** Recipient-Attach-Verify-Send.

# LITERATURE SEARCH + BOOLEAN

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** PICO keywords → AND narrows, OR widens, NOT excludes; filters (year/free full); save + cite.

|     |                             |
|-----|-----------------------------|
| Op  | Effect                      |
| AND | Both terms — fewer, focused |
| OR  | Either — more, broad        |
| NOT | Exclude term                |

**FATAL TRAP:** Single keyword dump. PICO + AND/OR + filters.**NORCET HIT:** Question-Keywords-Screen-Save.

# PUBMED / SCHOLAR / COCHRANE

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** PubMed = biomedical indexed; Scholar = broad citation-tracking; Cochrane = systematic reviews (top evidence). Prefer peer-reviewed primary.

| Need           | Tool     |
|----------------|----------|
| Trial/article  | PubMed   |
| Cited-by       | Scholar  |
| Best synthesis | Cochrane |

**FATAL TRAP:** Blog = evidence. Peer-review + recency + relevance.

**NORCET HIT:** Need-Tool-Assess.

# STATS SOFTWARE ORIENTATION

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** SPSS/R/Excel: enter clean data → descriptives (mean/median/SD) → graphs → interpret output, not just p-value.

| Step     | Do                         |
|----------|----------------------------|
| Enter    | Coded + validated sheet    |
| Describe | Mean/SD + charts           |
| Infer    | Test as guided + interpret |

**FATAL TRAP:** Wrong test on wrong data. Ask statistician + check assumptions.**NORCET HIT:** Question-Software-Interpret.

# HMIS: PATIENT JOURNEY MODULES

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** Registration-ADT-billing-lab/radio-pharmacy-nursing-inventory-reporting integrated; single ID links all.

| Stage | Module                                |
|-------|---------------------------------------|
| Entry | Registration + ABHA link              |
| Stay  | ADT + orders + nursing + pharmacy/lab |
| Exit  | Billing + discharge + reports         |

**FATAL TRAP:** Parallel paper + HMIS mismatch. HMIS as single truth + verify.**NORCET HIT:** Journey-Module-Decision.

## BARCODE/QR + CLOUD BASICS

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** Scan wristband + drug + sample at bedside; cloud = remote scalable storage — needs consent + encryption + vendor SLA.

|        |                                    |
|--------|------------------------------------|
| Scan   | Checks                             |
| Meds   | Right patient-drug-dose-time-route |
| Sample | Right patient-tube-label-time      |
| Cloud  | Access vs privacy trade-off        |

**FATAL TRAP:** Sticker on bed, not wrist. Scan worn band on patient.**NORCET HIT:** Scan-Verify-Document.

# CYBERSECURITY FOUNDATIONS

Professional Nursing Coach • HNIT 145 Computer Applications

A+

BATCH 1

**Core:** Passphrase + MFA, no sharing; phishing verify-report; ransomware isolate-report-downtime; patch + backup + least privilege.

|                   |                                    |
|-------------------|------------------------------------|
| <b>Threat</b>     | First                              |
| <b>Phishing</b>   | No click → verify channel → report |
| <b>Ransomware</b> | Isolate + downtime care + report   |
| <b>Breach</b>     | Contain + preserve logs + notify   |

**FATAL TRAP:** Pasting chart into public AI. Approved tool + de-identified minimum.**NORCET HIT:** Prevent-Detect-Report-Recover.

**BATCH 1 BLITZ (UNIT I)**

Professional Nursing Coach • HNIT 145 Computer Applications

**A+****BATCH 1****Core:** IPO, volatile RAM, scan-verify, lock-save, PDF share, SUM/IF, BCC privacy, AND/OR, HMIS journey, MFA-report.

|                          |            |
|--------------------------|------------|
| <b>Q</b>                 | <b>A</b>   |
| <b>Volatile</b>          | RAM        |
| <b>Barcode checks</b>    | 5 rights   |
| <b>Lock keys</b>         | Win+L      |
| <b>Share final</b>       | PDF        |
| <b>Average</b>           | =AVERAGE() |
| <b>Hidden recipients</b> | BCC        |
| <b>Narrow search</b>     | AND        |
| <b>HMIS link</b>         | Single ID  |
| <b>Second factor</b>     | MFA        |

**FATAL TRAP:** Next: Unit II informatics principles (DIKW, quality, usability).**NORCET HIT:** One concept per page done.

# HEALTH INFORMATICS: DEFINITION & SCOPE

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Health + information + people + processes + technology to improve care. Nurse = data generator + user + guardian.

| Pillar         | Nursing example                    |
|----------------|------------------------------------|
| Health need    | Falls, HAI, med error reduction    |
| Information    | Vitals, orders, alerts, dashboards |
| People/process | Ward workflow, handover, consent   |
| Technology     | EHR, BCMA, monitors, telehealth    |

**FATAL TRAP:** Technology alone improves care. People-process-data must change with it.**NORCET HIT:** Need-Information-Action-Outcome.

## OBJECTIVES: WHY INFORMATICS EXISTS

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Right info, right person, right time: continuity, safety, efficiency, research, equity.

| Objective       | Benefit                                      |
|-----------------|----------------------------------------------|
| Continuity      | Handover + shared record across shifts/units |
| Safety          | Allergy/drug alerts, ID checks               |
| Efficiency      | No repeat entry, auto totals, dashboards     |
| Equity/research | Gaps visible, data for audits                |

**FATAL TRAP:** Paper memory suffices. Continuity breaks without shared legible data.**NORCET HIT:** Continuity-Safety-Efficiency.

# LIMITS & BARRIERS + MITIGATION

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Cost, power/net, usability, training, workflow clash, poor data, privacy/cyber fears.

| Barrier    | Mitigate                                      |
|------------|-----------------------------------------------|
| Cost/infra | Phased + downtime plan + solar/backup         |
| Usability  | Nurse-tested screens, big buttons, few clicks |
| Training   | Super-users, ward drills, cheat cards         |
| Privacy    | RBAC + audit + consent                        |

**FATAL TRAP:** Ignoring workflow. Co-design with bedside nurses + pilot.**NORCET HIT:** Benefit vs barrier, fix loop.

# DATA → INFORMATION → KNOWLEDGE

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Raw vitals (data) → trend chart flagged (information) → sepsis action (knowledge) → wise timely act (wisdom).

| Level       | Example                                     |
|-------------|---------------------------------------------|
| Data        | HR 132, Temp 38.9 (raw)                     |
| Information | Fever + tachycardia trend, MEWS high        |
| Knowledge   | Likely sepsis → culture + fluids + escalate |
| Wisdom      | Right act, right time, patient context      |

**FATAL TRAP:** Raw number = decision. Context + trend + judgment needed.**NORCET HIT:** Raw-Trend-Act-Wisely.

# DIKW + CLINICAL JUDGMENT

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Wisdom = experience + ethics + patient preference with knowledge. AI suggests, nurse + doctor decide.

| Step         | Do                          |
|--------------|-----------------------------|
| Data capture | Accurate vitals + ID + time |
| Information  | Charts, scores, alerts      |
| Knowledge    | Protocol + assessment       |
| Wisdom       | Patient-specific safe call  |

**FATAL TRAP:** Alert = order. Verify patient + context, human accountable.**NORCET HIT:** Data to prudent action.

## DATA QUALITY: 6 DIMENSIONS

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Accuracy, completeness, timeliness, consistency, validity, uniqueness. Garbage in = harm out.

| Dimension           | Fail example                 |
|---------------------|------------------------------|
| Accuracy            | Wrong weight → drug overdose |
| Completeness        | No allergy → reaction        |
| Timeliness          | Late vitals → missed sepsis  |
| Consistency         | kg vs lb mix → error         |
| Validity/uniqueness | Invalid date, duplicate IDs  |

**FATAL TRAP:** Copy-paste old vitals. Fresh capture + verify + single ID.**NORCET HIT:** Right-Complete-Now-Consistent.

# STRUCTURED VS UNSTRUCTURED DATA

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Coded fields/numbers compute; narrative/images need reading/AI. Both needed.

| Type         | Use                                           |
|--------------|-----------------------------------------------|
| Structured   | Vitals, doses, codes, checkboxes — dashboards |
| Unstructured | Narrative notes, wound photos, audio          |
| Trade-off    | Structure computes; narrative explains        |

**FATAL TRAP:** Free text only for everything. Key safety fields structured + coded.**NORCET HIT:** Code to count, note to explain.

## USABILITY: FEW CLICKS, BIG SAFETY

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Readable fonts, logical flow, defaults safe, undo, no alert flood. Test with tired night nurse.

| Good                     | Bad                 |
|--------------------------|---------------------|
| 3 clicks to chart vitals | 12 clicks + scrolls |
| Tall-man LASA            | Look-alike list     |
| Single allergy banner    | Hidden allergy tab  |

**FATAL TRAP:** More alerts = safer. Fatigue → override → miss critical.**NORCET HIT:** Simple-Safe-Seen.

## WORKFLOW: BEFORE-DURING-AFTER

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Map as-is → redesign with tech → train → audit. Downtime paper ready.

| Phase   | Do                                |
|---------|-----------------------------------|
| Before  | Map ward steps + pain points      |
| Go-live | Super-user + double chart briefly |
| After   | Audit clicks/errors + fix         |

**FATAL TRAP:** Big-bang without pilot. Phase + feedback + downtime drills.**NORCET HIT:** Map-Build-Audit.

## EQUITY & ACCESS

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Language, literacy, cost, signal, disability. Low-tech options (SMS/voice) + assisted kiosks.

|               |                           |
|---------------|---------------------------|
| Gap           | Fix                       |
| No smartphone | SMS/voice + ASHA help     |
| Language      | Local + icons + audio     |
| Disability    | Large text, voice, helper |

**FATAL TRAP:** App only for all. Alternate channel + human help.**NORCET HIT:** No one left unread.

# INFORMATION NEED → BENEFIT MAP

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Handover, meds, lab, bed, outbreak — each need → source → use.

| Need     | Source → Use              |
|----------|---------------------------|
| Handover | EHR + SBAR → continuity   |
| Meds     | eMAR + barcode → 5 rights |
| Outbreak | Lab + dashboard → isolate |

**FATAL TRAP:** Data hoarding. Minimum necessary + purpose + consent.**NORCET HIT:** Need-Source-Use.

## EVALUATION: DID IT HELP?

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Uptake, time saved, errors down, satisfaction, harms. Stop/fix if worse.

|               |                        |
|---------------|------------------------|
| <b>Metric</b> | Check                  |
| <b>Use</b>    | Logins + completeness  |
| <b>Safety</b> | Errors/near-miss trend |
| <b>Time</b>   | Minutes per chart      |
| <b>Voice</b>  | Nurse feedback         |

**FATAL TRAP:** Install = success. Outcome + safety + time prove it.**NORCET HIT:** Measure-Mend.

## DOWNTIME PREVIEW (LINK III-IV)

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Power/net down → paper vitals/orders, ID bands, recall doses, back-enter + reconcile.

|        |                             |
|--------|-----------------------------|
| Down   | Do                          |
| Orders | Paper + read-back + sign    |
| Meds   | Previous MAR + allergy band |
| Labs   | Phone critical + log        |

**FATAL TRAP:** No downtime kit. Paper forms + stamps ready.**NORCET HIT:** Paper ready, reconcile after.

## PRIVACY PREVIEW (LINK IX)

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Minimum necessary, role access, no curiosity, consent for photos/secondary use.

|        |                                |
|--------|--------------------------------|
| Rule   | Do                             |
| Access | Own patients + task only       |
| Share  | Approved channel + de-identify |
| Photo  | Consent + EHR only             |

## DOCUMENTATION QUALITY HABITS

Professional Nursing Coach • HNIT Principles

A+

BATCH 2

**Core:** Timely, factual, timed-signed, no blame, abbreviations approved only.

| Habit   | Do                            |
|---------|-------------------------------|
| Timely  | Real-time, late entry flagged |
| Factual | Seen/done, vitals + actions   |
| Coded   | Allergy + diagnosis coded     |

**FATAL TRAP:** Late copy-forward. Fresh + factual + coded.**NORCET HIT:** Chart now, code right.

# HIS/CIS MAP: WARD TO WHOLE HOSPITAL

Professional Nursing Coach • HNIT Systems

A+

BATCH 3

**Core:** HIS links registration-ADT-orders-pharmacy-lab-radio-nursing-billing-inventory; CIS = clinical core (orders, results, eMAR, notes).

| System         | Owns                                        |
|----------------|---------------------------------------------|
| HIS            | Whole hospital admin + clinical + finance   |
| CIS            | Bedside clinical: orders/results/notes/eMAR |
| Nursing module | Care plans, vitals, handover, workload      |

**FATAL TRAP:** Standalone registers suffice. Linked single ID prevents repeat + error.**NORCET HIT:** One ID, many modules.

# ADT + REGISTRATION + MPI

Professional Nursing Coach • HNIT Systems

A+

BATCH 3

**Core:** Registration creates unique ID; ADT tracks admit-discharge-transfer; MPI links duplicates across units.

| Step           | Do                                        |
|----------------|-------------------------------------------|

# QUALITY DATA FROM SYSTEMS

Professional Nursing Coach • HNIT Systems

A+

BATCH 3

**Core:** Falls/HAI/meds from coded fields + denominators; trend + harm + act, not vanity counts.

|                  |                          |
|------------------|--------------------------|
| <b>Metric</b>    | Need                     |
| <b>Fall rate</b> | Falls/1000 days + injury |
| <b>Meds</b>      | Errors/opportunities     |
| <b>Use</b>       | Trend + fix, feedback    |

**FATAL TRAP:** Raw counts as rates. Numerator + denominator + definition.**NORCET HIT:** Define-Denominator-Decide.

## PRACTICAL: SIMULATED CHARTING

Professional Nursing Coach • HNIT Systems

A+

BATCH 3

**Core:** Admit → orders → vitals/eMAR → handover → discharge in training EHR; checklist + supervisor sign.

|       |                        |
|-------|------------------------|

# EHR VS EMR VS PHR

Professional Nursing Coach • HNIT EHR &amp; Sharing

A+

BATCH 4

**Core:** EMR = one department/episode; EHR = longitudinal across settings; PHR = patient-managed. EHR + HIE = continuity.

| Record | Holds                            |
|--------|----------------------------------|
| EMR    | Single encounter/department      |
| EHR    | Longitudinal multi-setting + HIE |
| PHR    | Patient app + wearables, linked  |

**FATAL TRAP:** ABHA number = record. ABHA is ID/linker, not the record itself.**NORCET HIT:** Episode-Full-Patient.

# INTEROPERABILITY 4 LAYERS

Professional Nursing Coach • HNIT EHR &amp; Sharing

A+

BATCH 4

**Core:** Foundational (transport) → structural (format) → semantic (meaning via SNOMED/ICD) → organizational (workflow/consent).

| Layer          | Fixes                           |
|----------------|---------------------------------|
| Transport      | Data moves (network/API)        |
| Structure      | Format parses (HL7/FHIR)        |
| Semantic       | Meaning kept (SNOMED/ICD/units) |
| Organizational | Consent + workflow use          |

**FATAL TRAP:** Exchange = usable. Meaning + consent + workflow must ride along.**NORCET HIT:** Move-Format-Mean-Use.

## HL7 V2 + FHIR RESOURCES

Professional Nursing Coach • HNIT EHR &amp; Sharing

A+

BATCH 4

**Core:** HL7 messages carry orders/results; FHIR resources (Patient, Observation, Medication) via APIs; must verify current version at production.

| Standard     | Carries                     |
|--------------|-----------------------------|
| HL7 v2       | ADT/orders/results messages |
| FHIR         | Modular resources + APIs    |
| IHE profiles | Workflow integration        |

**FATAL TRAP:** Teaching code syntax. Concept + resource + use, not programming.

**NORCET HIT:** Message-Resource-Workflow.

# SNOMED CT VS ICD-11

Professional Nursing Coach • HNIT EHR &amp; Sharing

A+

BATCH 4

**Core:** SNOMED = detailed clinical meaning (findings/procedures); ICD = grouping diagnoses for stats/billing. Both coded, different jobs.

| System        | Job                                      |
|---------------|------------------------------------------|
| SNOMED CT     | Granular clinical concepts + relations   |
| ICD-11        | Chapters for reporting/mortality/billing |
| NANDA-NOC-NIC | Nursing diagnoses-outcomes-interventions |

**FATAL TRAP:** SNOMED = classification. SNOMED details, ICD groups.**NORCET HIT:** Detail vs Group.

## DICOM + IMAGING FLOW

Professional Nursing Coach • HNIT EHR &amp; Sharing

A+

BATCH 4

**Core:** DICOM links modality-PACS-EHR; order → protocol → image → report → view + compare priors.

|--------|-------------------------------------------|
| Step   | Nurse                                     |
| Order  | Indication + allergy + kidney + pregnancy |
| Scan   | ID + consent + contrast watch             |
| Report | View + file + inform                      |

**FATAL TRAP:** DICOM for all data. Imaging only; EHR needs HL7/FHIR.**NORCET HIT:** Modality-PACS-EHR.

# ABDM + ABHA + HIE-CM

Professional Nursing Coach • HNIT EHR &amp; Sharing

A+

BATCH 4

**Core:** ABDM ecosystem; ABHA = health ID/linker; HIE-CM = consent manager for sharing. Verify current portal/flow at production.

| Piece  | Is                                |
|--------|-----------------------------------|
| ABDM   | National digital-health ecosystem |
| ABHA   | Identifier + linker (not record)  |
| HIE-CM | Consent-based exchange layer      |

**FATAL TRAP:** ID exists = sharing allowed. Consent purpose runs sharing.**NORCET HIT:** ID-Link-Consent.

## CONSENT: PURPOSE + SCOPE + EXPIRY

Professional Nursing Coach • HNIT EHR &amp; Sharing

A+

BATCH 4

**Core:** Granular (what/whom/why/how long), revocable, logged; emergency/break-glass per policy + audit.
